## ***Join The Labor Campaign for Single-Payer***

The Labor Campaign for Single-Payer was founded in January, 2009. Our Mission: to help build and coordinate grassroots labor support for a Single-Payer 'Medicare-for-All' healthcare system in America. LCSP helped to coordinate the network of hundreds of Single-Payer, HR 676 supporting labor bodies over the past year and played an instrumental role in the passage of AFL-CIO Resolution 34, the commitment to a Single-Payer System, at the Federation's September 2009 Convention.

The nation's lawmakers have passed healthcare reform legislation which falls far short of resolving the crisis caused by the country's current profit-driven, discriminatory health care system. As a result, collective bargaining will remain a healthcare battleground and the costs of coverage will continue to rise unchecked, helping to perpetuate the downward economic spiral workers are caught in today.

All labor organizations and individuals who want to continue to build the campaign for a real universal, comprehensive, affordable single-payer system in this country are invited to join the Labor Campaign for Single-Payer and help play a vital role in the ongoing grassroots struggle for health care justice in this country.
